

Amendments to the Specification:

The Specification has been amended to meet the requirements set forth by the Examiner in Section 2 of his Office Action. Briefly, it was required that ALL the tables originally in the Specification be moved to the Drawing. This was accomplished by first removing the tables into the drawing as new FIGs. 12 - 68, inclusive. In the Specification, the phrase "REFER TO FIG. XX." was inserted at each relevant place. In the Brief Description of the Drawing section commencing on Page 4, a new passage at the last line on Page 5 "FIGs. 12 - 68 are tables referred to herein." perfects that section.

Also, the undersigned Attorney agrees with the Examiner (Office Action, Section 3) that the list of publications provided as Appendix C on Page 104 of the original Specification was superfluous at best, and it has been omitted in the Substitute Specification discussed immediately below.

As it is clearly impractical to enter these amendments into the original Specification, a Substitute Specification is provided herewith. The undersigned Attorney certifies that this Substitute Specification was developed from the original electronic file to effect only the changes noted above. The pagination, of course, is considerably affected. The Claims

should commence after Page 73 of the Substitute Specification. No new matter is presented.
